

8th

SONEUK CONFERENCE

SATURDAY

8th JULY 2023

CALL FOR ABSTRACTS

Engineering for Environment

Following the success of the conferences over the years, the Society of Nepalese Engineers in UK (SONEUK) is organising its **8th conference with a theme of "Engineering for Environment"** which will be held on **Saturday 8th July 2023**. This conference aims to explore the role engineering and technology play in protecting environment with a focus on current developments globally and their relevance in the context of Nepal where appropriate.

Indicative list of topics for the conference include:

- Sustainability and environment
- Sustainable materials & infrastructure development
- Renewable energy
- Life cycle analysis
- Health and safety management
- Artificial intelligence
- Circular and bioeconomy
- Disaster management
- Organisational resilience
- Application of advanced technologies
- Meeting healthcare challenges through engineering solutions

SONEUK conference committee would like to invite all members and non-members to submit an abstract for consideration. This year the conference committee has decided to include poster presentations along with full papers. Please submit your abstract, **of no more than 250 words**, to conference@soneuk.org by **Saturday 31st December 2022** clearly indicating whether you would like to submit a **full paper** or a **poster**.

If you would like to discuss any further details about the conference or abstract submission, please contact the conference committee via conference@soneuk.org or directly contact the coordinator Mr Hari Nepal (h_nepal@yahoo.com). We look forward to receiving your abstract submissions.
